

And in the USA alone...
600,000 jobs lost per month
24 million people
 Out of work
 Looking for a job
 Working fewer hours
 Discouraged to even look for employment

Today we need leaders
 A leader brings belief
 conviction and confidence

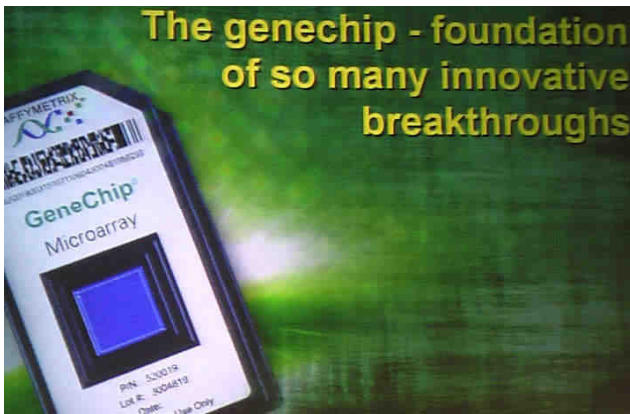

Our pillars

- Education
- Innovation
- Traceability
- Brand
- Cause

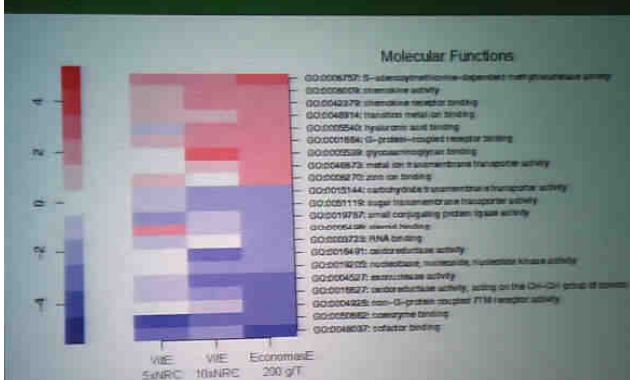

Through competitions like the Alltech Young Scientist Encourage young people into our industry

2006: 86
 2007: 201
 2008: 727
2009: 2,000!

How do we match the same gene expression patterns of Vitamin E at lower costs?

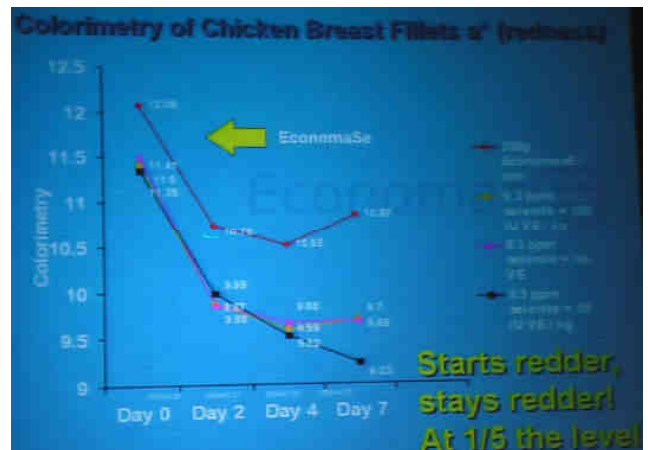

Color:

- Responsible for "Red" color in muscle
- The oxidation state of Fe in myoglobin dictates color

EconomasE

+2 is RED
 +3 is BROWN (oxidized/rusted)

Use algae to capture energy and nutrients

- Carbon credits
- Algae as protein
- Algae as a source of Biofuels

The Challenges

- Antibiotics
- **Environment**
- Quality

SSF

Use SSF to convert cellulose into the new raw material

Alltech Quality System

We do

- 3 audits per year on suppliers
- Analyze every batch of product for dioxin-pcb (\$1,200 per analysis packet)
- Only products that meet top standards are released
- This is part of our traceability.

What does your supplier do? Do you audit your supplier?

We reject 33% of all materials supplied to us.

1. Sodium Selenite
 - Group died
2. Seleno Methionine
 - Group died
3. Sel-Plex®
 - Sel-Plex: Cancer progress was slowed and barely visible and still alive.
